LET US CARE ABOUT YOUR MEMORIES

MRStudio TV and Visual Illusion Portraits delivers studio quality, professional portraiture and other kind of shoot taken in a setting that makes each child feel comfortable and safe. We capture once memories and offer a wide range of portrait products and options at affordable prices. Awards Photographers like Ivette Martinez and Waldo Arias working on the creative enviroment.

SET-UP the STUDIO

Our portable studio kits come with modelling lights and it's vital that you keep these on so you can see how the light is falling on your subject. the professional lights can help you concentrate on shape, tones and shadows falling on the face and pre-visualise the end result.

Need for set-up our photo-studio 12 foot to depth and 8 by width minimum for shoot. we have different backgrounds for the shooting like White, Black, muslin or we change the back replace with any image like school wallpaper or family paint with our designers and photo-editors.

Items Used:

- Lights Stands
- Umbrella with Adapter (2)
- Light Box
- Professional Flashes (sync)
- 2 Cameras Canon 1D & 5D (backup 2 NIKON D750)
- Stands and Backgrounds Units
- Laptop with Lightroom for previews

How It Works

We photograph all children based on parent preferences. All children will receive a portrait package, and parents can preview portraits in the comfort of their own home. Parents return portrait payments along with any portraits they don't want to your center.

Before Picture Day

Our dedicated customer service team will call you to discuss picture day details.

- 4 weeks before Picture Day: Picture Day Materials arrive at your center
- Immediately hang posters promoting Picture Day
- 1 week before Picture Day: Send parent notices home
- 1 day before Picture Day: Apply stickers to children's clothing

On Picture Day

Our experienced photographers will work with you to ensure a successful Picture Day.

- Please review any special situations or needs with your photographer
- Provide the photographer with returned parent notices
- Supply class list to fill out camera cards

After Picture Day

Portrait Distribution Instructions will arrive with finished portraits within 3 weeks.

- Hang posters, have parents sign out portrait packages to preview
- Use the Portrait Sales Report to track returned portraits and payments
- 2 weeks after portraits arrive: Distribute Final Reminder notices
- 21 days after portraits arrive: Return payments and unpurchased portraits to us.

Post-Productions

We support the 2 most popular workflow platforms:
Lightroom and Aperture. Yep, you can sleep peacefully now!

COLOR CORRECTION

After the shoot, what's next? It's time to make 'em look good! The best part: our color correction is totally custom. You'll never be forced to choose between 3 or 4 styles, or be limited to 1 or 2 deviations away from our "standard" look. Of course, we'd never think to charge you extra for customization, either. Whether you've spent months developing and tweaking your own style, or are looking for a change but have no idea how to do it, we're here to help!

CULLING

If you're like most photographers, you take a lot of photos at every work or portrait shoot. There are some wonderful photos in there, but sometimes it can be a pain to search them out and get rid of the duplicate images. We can help. Let us pare down the images to a reasonable number, within a range that you request.

PHOTOSHOP

Sometimes it's impossible to "get it right" in camera. Luckily, there are plenty of tools to make even the most incredible fixes possible. Unfortunately, they can often take time and high levels of experience. Whether it's removing distracting elements, beauty retouching, or swapping heads so everyone is looking at the camera, we can help with your advanced editing.

ALBUM DESIGN

Digital photos are great, but an image's true beauty is revealed when it is printed. There's hardly anything more wonderful than seeing your images artfully printed and displayed. We're happy to be able to offer both album design and printing to expedite this process. Also our online galleries have a great layout and easy for sharing.

Video Productions

A **Webmercial** is simply a promotional video that you put on your website. It can vary in length anywhere from 30-seconds up to 5 minutes. A Webmercial can show your product in action, take a tour of your facility, introduce the owner or key employees or educate the consumer as to why they need your product or service. Each Webmercial package is customized to meet your needs and your budget!

Video Marketing is a way of promoting your product or service through the use of VIDEO. We help you incorporate this video into your Online Marketing mix, through the use of customized video sharing and YouTube. We will help you develop Key/Tag words, work with your social media presence and customize your video player to match your website. Our Online Marketing services can help bring more potential clients to your website, keep them on your site longer and improve their experience with your company.

Whether you have your **Social Media** sites up & running or are waiting for them to be perfected, we can help you go further with your social media through the use of Video. We can help you set up your accounts, upload your videos and use them strategically to generate a buzz about your company. They used to say someone needs to hear your name 7 times before they use your services, but now, with social media, it has jumped to over 30 times! You need to be out there now, and we can help you.

Promotional Videos are our signature pieces. These videos tend to run longer than a Webmercial and provide a complete overview of a company, person, product or service. Promotional Videos are typically 5-15 minutes in length and can include: facility tour, product demonstration, owner or key employee interviews, client testimonials, product or service in action, photos of past jobs, graphics & much more. Typically a Promotional Video is accompanied by a complete script and professional Voice-over. A Promotional Video can be used online, on DVD, at a trade show, on sales calls or via an in-house system. Promotional video packages are customized to meet the needs and budget of the client.

Corporate Videography covers a wide range of specialties. Whether you are looking for a basic Webmercial or a full-service Promotional Video, we can help! Our Corporate Videography services can go much further as well. Do you have an annual event that needs coverage? Is there someone retiring that you'd like to spotlight in a light-hearted video to show at their upcoming farewell party? Do you often generate large bids, and feel a bid-specific video could help you close the deal? There are many opportunities for corporations such as yours to utilize our services. Don't go through the expense of creating an in-house department. Let us take the stress out of it and cover your needs from top to bottom.

A Webcast is a **Live Event streamed** online that can be viewed by anyone, anywhere with an internet connection. It can be educational, informative, humorous, etc. A Webcast can be viewed live and archived for later viewing. It can be free, password protected or pay-per-view. A Webcast is ideal for sales or product demonstrations and is an excellent marketing opportunity!

Do you already have all the equipment but don't know where to start? Our webcasting consultation services can point you in the right direction.
